Practice Transformation for Physicians and Health Care Teams (formerly called *Better Diabetes Care*) is a free online resource designed for health care professionals and administrators who want to change systems of health care delivery around diabetes.

Newly
updated
by the
NDEP!

Practice change is essential to provide evidence-based care recommended by the Patient-Centered Medical Home (PCMH) model and to manage issues related to diabetes and its complications. This resource provides models, links, and tools to help physicians and health care teams initiate and maintain quality improvements in their health care practice.

Content featured on this site is based on current, peer-reviewed literature and evidence-based clinical practice recommendations.

The screenshot shows the NDEP website interface. At the top, it features the U.S. Department of Health and Human Services logo, the NDEP logo, and logos for the CDC and NIDDK. A search bar is located in the top right. Below the header is a navigation menu with categories like Home, Publications, Resources, Diabetes Facts, and Press. A secondary menu includes links for 'I Have Diabetes', 'Am I at Risk?', 'Health Care Professionals, Businesses & Schools', and 'Partners & Community Organizations'. The main content area is titled 'Practice Transformation for Physicians and Health Care Teams'. It includes a brief description of the site's purpose and a grid of eight key areas: Engage Leadership and Assess Your Practice, Provide Evidence-Based Care, Use Information Systems, Improve Practice Quality, Use Clinical Decision Support, Practice Team-Based Care, Enhance Patient-Centered Interactions, and Improve Patient Care Coordination. Each area is accompanied by a small representative image.
