

Practice Transformation for Physicians and Health Care Teams

The National Diabetes Education Program's (NDEP) *Practice Transformation for Physicians and Health Care Teams* website is a free online resource designed for health care professionals and administrators who want to change systems of health care delivery around diabetes. The resource includes:

- An organized approach to guide health care professionals toward the formation of a Patient-Centered Medical Home and the tools to support this approach
- Information on technological advances with known effectiveness in clinical systems to enhance care delivery and improve outcomes
- Quick and easy access to diabetes guidelines and major diabetes research studies
- A large collection of resources to support practice assessment and improvement
